I turn around and there I see
C G6 Am7 Am7(G)
Like a beacon shining through
F G C
My guiding light is you

Over desert burning sands
And boundless tracts of foreign lands
Out upon the raging sea
You're everywhere with me
When the load is hard to bear
Then I know that you'll be there
Keeping step in step with me
And always there you'll be

When we reach our goal at last
And all the trials of life are past
I'll reach out and hold your hand
On that final strand
When no more miles are left to roam
When we know that we are home
Then together we will be
Through eternity
